

# Are You Prepared?

## Severe Weather Preparedness Checklist

- Prepare an emergency kit with enough food, water and other supplies to last at least 72 hours.
- Create and discuss an emergency plan with your family. By planning in advance, you can determine how you and your family members will get to a safe place, how you plan to contact one another, and how you will reunite.
- Stay informed by signing up for emergency alerts with Rave Alerts through Smart911. You can also receive up to date information by following local public safety agencies on Facebook and Twitter.
- Sign up and create a Safety Profile at [www.smart911.com](http://www.smart911.com) to provide any information about your family and household that you want 9-1-1 call takers and first responders to know in an emergency. This information can save valuable seconds or even minutes in response time.
